### Safety Instructions:

- The desk must be mounted and used stably on a flat surface to prevent it from tipping over and wobbling.
- Installation should only be carried out by specialised personnel or under supervision and the enclosed installation instructions must be followed carefully.
- Before adjusting the height, ensure that no objects or body parts can become trapped.
- Cable outlets should be used properly to avoid tripping hazards.
- The table top should not be loaded above the recommended weight to prevent instability.
- The desk is not suitable for children; supervision is required when used by children.
- Sharp and heavy objects should not be placed on the tabletop to avoid damage and danger.
- Avoid contact with moisture and extreme temperatures to prevent material damage.
- Regular inspection of stability, screws and other mechanical parts is necessary to ensure safe use.
- In case of questions or accidents, contact the manufacturer for support and instructions.
