Safety Instructions:

- Place the table on a stable and level surface to prevent it from tipping over.
- Do not overload the table and pay attention to the maximum load to prevent structural damage.
- Protect the table top from sharp or heavy objects to avoid scratches and damage.
- Follow the assembly instructions carefully to ensure a safe construction.
- The table is designed for indoor use and should not be used outdoors or in extreme temperatures.
- Regularly check the stability and functionality of the table and connecting elements.
- Ensure that the table top is securely mounted to prevent it from wobbling or tipping over.
- The height adjustment should be carried out correctly, preferably only by adults, to avoid injury.
- Keep the table away from moisture and water, especially electrical cables, to prevent damage.
- Lay cables in an organised manner using the cable apertures provided to prevent tripping hazards.
- Not suitable for children under 3 years due to choking hazard from small parts.
- Avoid uneven weight distribution on the tabletop to prevent tipping.
- Keep the product away from heat sources to avoid the risk of fire.
- Ensure that children are not left unattended at the table to avoid injury.
- Follow the care instructions: To protect the surface, do not use aggressive cleaning agents.
- If the table is damaged, stop using it and contact the manufacturer for further instructions.
- Use on stable surfaces and within the specified height settings for ergonomic use.
- Only use the appropriate tools for installation.
- Use cable outlets to avoid cable clutter and tripping hazards.
