Safety Instructions:

- Ensure that the table is stable and correctly assembled to avoid accidents and injuries. Use floor levelling screws for uneven floors.
- Avoid excessive loads and keep heavy objects evenly distributed to prevent the table top from tipping over or breaking. Do not exceed the maximum load capacity.
- Secure and correctly connect all cables and electrical devices to avoid tripping hazards, overheating or short circuits. Check cable outlets regularly.
- When adjusting the height of the table, make sure you follow the instructions to avoid tipping or falling over. Check the height adjustment mechanism regularly.
- The table should only be assembled and adjusted by adults. Round off sharp corners to avoid injury.
- Ensure that the tabletop is not positioned near sources of water or extreme temperatures. Protect the surface from hot objects.
- Regularly check the screws, retaining screws and fastenings for tightness and condition. In the event of damage, contact the manufacturer and do not use the table.
- Use the desk in accordance with the intended specifications and instructions. Do not use for sitting or standing to avoid the risk of falling.
- Keep the workplace free of unnecessary objects to prevent accidents. Use the desk as a single piece of furniture or in combination with sufficient space.
- Include instructions on how to clean the melamine resin-coated surface correctly to prevent damage.
