Safety Instructions:

- The desk must be used on a stable, level surface to prevent it from tipping over.
- The height adjustment should be carried out in accordance with the instructions in order to avoid injuries or sudden changes in height.
- Avoid overloading the table top, as this can lead to damage or tipping over.
- Keep enough space around the table to avoid falls.
- Carry out installation and accessories according to the instructions, preferably by a qualified person to ensure safety.
- Do not use aggressive cleaning agents to clean the table top to avoid damage.
- Avoid placing the table near heat sources to prevent the risk of fire.
- Secure the table to prevent it from tipping over and regularly check the stability and tightness of the screws.
- The desk is not suitable for children unless they are supervised by adults.
- Dispose of the product in accordance with the applicable waste disposal regulations.
- Ensure that cables are laid securely to avoid electrical risks and tripping hazards.
- Use a suitable underlay to prevent damage to the floor.
- Avoid contact with water or liquids to prevent damage to the tabletop and electrical components.
- Keep your distance from other pieces of furniture to avoid injury.
- Only use the desk for its intended purpose.
- Ensure protection against crushing when adjusting the height.
- Make sure that the table top is mounted stably to avoid injuries.
