Safety Instructions:

- Ensure that the desk is mounted on a firm, stable and level surface to prevent it from tipping or falling over.
- The desk should be assembled in accordance with the enclosed instructions and only by qualified personnel.
- Avoid overloading the table top above the maximum recommended load of 100 kg to prevent damage and instability.
- Children should not play with the desk alone or move around on it to avoid injury.
- Make sure that all cables are routed safely and neatly through the cable outlets to avoid tripping hazards.
- The height adjustment of the desk should only be carried out by persons who are familiar with the function in order to avoid crushing or malfunctions.
- Regularly remove obstacles around the desk and keep it free of heat sources and moisture to prevent damage.
- Sharp edges of the table top should be checked and sanded down if necessary to avoid injury.
- Regular checks of the stability and condition of the connecting parts and the material are necessary to ensure safety.
- The desk is not suitable for children under 14 years of age; smaller parts may pose a choking hazard.
- Accessories should only be installed and used in accordance with the manufacturer's instructions to avoid structural damage.
- Assembly should be carried out carefully to avoid unsafe constructions and the associated risk of injury.
- The product is not suitable for use as play equipment, especially not for children under 3 years of age.
- When installing electronic devices, ensure that the cables are laid correctly to avoid electrical hazards.
- Keep the work area clean and free from interference to ensure safe working conditions.
