Article Numbers: 401149, 401148, 401147, 401146, 401145, 401144, 401143, 401142, 401141, 401140

Safety Instructions:

- Maximum load per drawer: 35 kg. Avoid overloading to prevent damage or injury.
- Drawers can be pulled out up to 80%; activate the single pull-out stop to prevent several drawers from opening at the same time and to avoid crushing.
- Only use the drawers for their intended purpose and ensure that the individual pull-out stop is always activated to prevent injury.
- If necessary, secure the drawers with a cylinder lock to prevent theft and unauthorised access; keep keys away from children.
- Keep the drawers clean and maintain them in accordance with the manufacturer's instructions to ensure their functionality.
- Check drawers regularly for damage and repair them to ensure safety.
- Keep children away and should only be used by adults to avoid injury.
- The drawers should always be fully retracted before the workbench is moved to avoid accidents.
- Do not use as stairs or steps to prevent falls.
- Use cylinder lock with central locking system, keep key safe to prevent misuse.
- Only use suitable workbenches and assemble according to the manufacturer's instructions to ensure stability.
- Keep drawer bases away from water and strong cleaning agents to protect the coating.
- Carry out assembly and use in a language understandable to the user to ensure safe use.
