Safety Instructions:

- The substructure must have an adequate load-bearing capacity and be mounted on a stable surface to prevent slipping.
- Before combining with a workbench module, ensure that all components are compatible.
- When opening doors, make sure that there are no objects in the way to avoid injury.
- Use a central locking system and cylinder lock to prevent unauthorised access.
- Carry out installation in accordance with the instructions in order to minimise safety risks.
- Keep the substructure away from water, moisture and extreme temperatures to prevent corrosion and damage.
- Only use recommended cleaning agents for powder-coated surfaces.
- Protection against injuries: Handle hands and fingers safely when opening doors and hinges.
- Do not store any hazardous or easily flammable materials in the vicinity.
- Product is not designed for use by children; keep out of reach of children.
- Only use the product in accordance with the instructions provided.
- Do not use the product if there is rust or signs of wear.
- Ensure that all parts are correctly and stably connected before use.
- Maintain clear instructions and safety information for the consumer.
- Take care when handling heavy and sharp objects.
- Ensure that the workbench is stable when it is set up to prevent accidents.
- Maintain stability; avoid overloading the shelves.
- Product is heavy; observe correct lifting technique when moving.
- Regular inspection for damage and unsecured storage of tools is recommended.
- Do not allow any heavy objects to protrude above the height of the substructure.
- Use the cylinder lock and central locking system correctly to prevent unauthorised access.
- Protect the area around the product from children.
- Only to be used by adults or under their supervision.
