Article Numbers: 401518, 401517, 401516, 401515, 401514, 401513, 401512, 401511, 401510

Safety Instructions:

- Ensure assembly and use in accordance with the instructions provided.
- Observe the maximum load of 120 kg to avoid damage and injury.
- Observe stability requirements for high-load applications.
- Only use the product in the intended environment and application in order to minimise risks.
- Regular inspection of the parts for wear or damage is recommended.
- Wear protective equipment such as gloves and safety goggles during installation and use.
- Store tools and appliances horizontally to prevent them from tipping over.
- Tighten fasteners securely and install properly to prevent loosening or slipping.
- Mount the product on stable table frames or work surfaces to prevent it from falling over.
- Small parts pose a choking hazard; keep away from small children.
- Product not suitable for children; children must be supervised when using the product.
- Do not use above the recommended usable height of 600 mm.
- Designed for specific workbenches (Universal Standard and Profi Standard), therefore only use with these.
- There is a risk of falling or injury if not installed correctly.
- Position the product on protected and stable workstations.
- Protects hands from sharp edges during assembly and use.
- Regular checks of the connections and stability are required.
- The use of suitable tools for assembly is recommended.
