Safety Instructions:

- Do not exceed the maximum load capacity of 120 kg.
- Ensure that the assembly portal is properly secured to the table or workbench to prevent accidents.
- Avoid unsafe or unstable constructions and ensure suitable stability during installation by properly securing all fixings.
- Set up and store out of the reach of children to avoid the risk of injury or suffocation from small parts. The product is not suitable for use by children.
- Include user instructions for installation and use in understandable language and read them carefully to prevent misuse.
- Use the product on a stable, level surface and ensure that there are no loose parts that pose a risk of falling or choking.
- Height adjustment and use only according to instructions to avoid damage and safety risks.
- If there are signs of damage, stop using the product and regularly check the fastenings and condition.
- Only use the intended fastening elements and suitable tools for installation.
- High load capacity of up to 120 kg requires stable assembly to prevent structural damage.
- For safe use, install on a flat, stable surface and pay attention to electrical appliances in the vicinity during use.
