Safety Instructions:

- Product not suitable for children under 3 years of age due to choking hazard from small parts and assemblable parts. Store out of the reach of children.
- Safely assemble and use the extension table in accordance with the instructions to avoid risks such as tipping over, falling or instability. Ensure that the installation surface is stable and level.
- Avoid excessive loads on the table top to prevent deformation or breakage. Adhere to the intended load limits of the table.
- Keep the table away from fire, extreme temperatures and moisture to prevent material wear.
- To protect the melamine resin coating, do not use aggressive chemicals for cleaning. Wipe off any spilt liquids immediately to prevent damage.
- Ensure that the height-adjustable feet are correctly adjusted and stable to prevent instability and tipping over. Check them regularly for functionality and stability.
- To avoid accidents, do not use the table for purposes other than its intended use, e.g. as a ladder.
- Have the assembly instructions ready and follow them carefully to avoid improper installation and to ensure the structural integrity of the table.
- Suitable tools must be used during installation and the instructions must be followed to minimise the risk of injury.
- Protect sensitive surfaces by moving the table carefully and attaching felt glides if necessary.
- Regularly check for signs of wear on the materials and stability of the table to ensure longevity and safe use.
