Please note the technical data of the products!

Article Numbers: 166109, 166107, 166105

Safety Instructions:

- Take care when laminating, as the films can become hot.
- Not suitable for use by children without adult supervision.
- Avoid direct contact with sharp objects so as not to damage the film.
- Not suitable for direct contact with food.
- The films can be damaged at high temperatures, so do not use them in the microwave or oven.
- Small parts can be a choking hazard, especially for children.
- Ensure that the laminators comply with the safety requirements.
- The laminating film should be kept out of the reach of children to minimise the risk of choking on small parts.
- Avoid use at high temperatures to prevent the film from leaking or deforming.
- Using the film in conjunction with unsuitable laminating equipment can lead to damage.
- Foils should not be reused.
