Safety Instructions:

- Risk of injury from sharp edges on the doors or the body, despite double bevelling. Take care when opening the doors and handling in general to avoid crushing injuries.
- Observe the maximum load capacity (46 kg) and do not overload the cupboard to prevent it from tipping over. Store cabinet contents according to weight and stability.
- Ensure that the safe deposit box is properly installed and fixed to a stable surface to prevent it from tipping over.
- Children should not have access to the cabinet or must remain under supervision to avoid injury. Product not suitable for children under 3 years of age.
- Risk of suffocation due to improper handling of small objects and accessories. These should be kept out of the reach of children.
- Use the security cylinder lock properly and check its functionality regularly to prevent unauthorised access and theft.
- Avoid climbing, standing or sitting on the cabinet to prevent injuries.
- Regularly check for stability, damage and the functionality of mechanical parts. Ensure maintenance.
- Use the cabinet safely and properly to avoid injury or structural damage. Read and follow the instructions for use carefully.
- Avoid contact with liquids to prevent damage to the material and locking mechanisms.
