Article Number: 166367

Safety Instructions:

- Attention: The labels can be used at extreme temperatures (-40°C to +150°C). Make sure that the application is within these limits.
- Caution: Adhesion may be reduced when used on non-precoated substrates.
- Note: The product is seawater-resistant, but should not be used under extreme conditions for long periods of time.
- Warning: Incorrect handling can cause the product to peel off or be damaged. Follow the instructions for correct application.
