Safety Instructions:

- Maximum load capacity: 200 kg. Do not overload to avoid instability. Risk of falling over if overloaded.
- Product is not suitable for children under 12 years of age, use under supervision when used by children, does not contain any specific child-safe functions. Danger from swallowable small parts under 3 years of age.
- The chair must be placed on a stable surface; be careful not to tip over on uneven ground.
- Regular inspection for wear and damage to connecting elements, rotating mechanism and other components is recommended. Do not use immediately in the event of damage.
- Do not leave any heavy objects unattended on the chair. Do not place on the armrest or backrest.
- Do not bring the chair into contact with sharp objects or excessive heat. Classify the product as flame retardant, but handle with care.
- Do not pay attention to spilt liquids or food to avoid the risk of slipping.
- Clean and care according to the manufacturer's instructions.
- Observe the safety instructions for assembly and use. Be careful with improper use with regard to stability and swivelling mechanism.
- Do not modify the product or make any unauthorised changes.
- Ensure that the product has an identification number for traceability.
