Safety Instructions:

- All sharp edges and corners are rounded to prevent injuries.
- The product should not be used by children without supervision to prevent injury.
- Always secure the cupboard to the wall to prevent it from tipping over.
- Make sure that the lock is working properly, especially when not in use for a longer period of time, to prevent theft.
- The product is not suitable for use by children.
- Do not place any heavy objects on the cabinet to prevent it from tipping over.
- Use the security cylinder lock correctly to prevent unauthorised access.
- Keep the cabinet dry to prevent rusting and material damage.
- Avoid contact with harsh or chemical cleaning agents so as not to damage the coating.
- Regularly check the structure and stability to prevent damage or wear.
- The ventilation openings must not be blocked to ensure proper air circulation.
- Follow the safety instructions for correct assembly and anchoring of the cabinet to ensure stability.
- Avoid overloading the compartments beyond the specified load capacity in order to minimise safety risks.
- Keep the key and lock out of the reach of children to prevent misuse.
- The cabinet is not suitable as a toy for children; contains small parts that pose a choking hazard.
- Ensure that the cabinet is installed correctly to prevent it from tipping over.
- The doors should always be properly locked to prevent injury and unauthorised access.
- Only use the cabinet for its intended purpose; improper use can lead to safety risks.
- During installation, ensure that the cabinet is stable to prevent it from tipping over.
- Protect the cabinet from moisture and direct sunlight to prevent rust and fading of the paintwork.
