Safety Instructions:

- Do not store heavy objects above the recommended load and avoid excessive weight to prevent damage and tipping.
- Only use the cabinet for its intended purpose and ensure that it is handled correctly.
- Always secure the doors before use and keep them closed to avoid injury.
- Watch out for sharp edges and corners; take protective measures if necessary.
- Make sure that the cabinet is standing on a stable surface and will not tip over.
- Keep the cabinet away from water sources and humid or extreme environments to prevent corrosion.
- Children must not climb on the cupboard or use it as a toy.
- Use the security cylinder lock to prevent unauthorised access. Keep the key safe.
- Avoid excessive weight on top shelves to minimise the risk of tipping.
- If there are problems with doors or cylinders, contact a specialist immediately.
- Avoid aggressive cleaning agents for maintenance.
- Ensure adequate ventilation; do not block ventilation holes.
- Carry out regular inspections of doors, locks and construction.
- Make safety instructions available to all users and ensure correct installation.
