Please note the technical data of the products!

Article Numbers: 136751, 136750, 136749, 136748, 136747, 136746, 136745, 136744

Safety Instructions:

- Risk of injury from sharp edges of the doors or corners: Make sure that no body parts are trapped.
- Risk of suffocation from small parts if handled incorrectly, especially with the safety cylinder lock: Keep small parts away from children.
- The safety of the cabinet depends on correct assembly and a stable base: Follow the assembly instructions and ensure a stable, level base to prevent tipping.
- Avoid excessive weights in the compartments to prevent structural damage and tipping.
- Use a security cylinder lock to prevent unauthorised access and check regularly that it is working properly.
- Do not overload or use compartments and edges improperly to avoid injury or structural damage.
- Store and use the product in accordance with safety requirements to ensure safety.
- Avoid mould formation by ensuring good ventilation, especially through the rear wall.
- Use the cabinet in closed, well-ventilated areas, not in humid or hot environments.
- Risk of injury due to improper use of the doors: Ensure that the doors can be opened easily and safely.
