Safety Instructions:

- The height adjustment may only be carried out by a qualified person to prevent the table from falling over.
- Product safety instructions must be observed in accordance with the operating instructions.
- The packing table should be placed on a firm and level surface to ensure stability.
- Ensure that the load capacities (1000 kg, 800 kg, 700 kg) are not exceeded.
- Avoid contact with harsh or aggressive cleaning agents so as not to damage the surface coating.
- The table should only be set up and used when necessary and with suitable protective clothing.
- Risk of suffocation and crushing due to improper handling.
- Use of rubber protectors to prevent slipping accidents.
- Use safety mechanisms to prevent unintentional height adjustment.
- Ensure that the packing table is stable to prevent it from tipping over.
- Ergonomic adjustment of the table height to prevent injuries.
- Ensure that the height of the table is set correctly to ensure ergonomic working conditions.
- Provide recommendations for safe use and installation in the manual.
- Provide safety information in a clearly understandable language.
