Please note the technical data of the products!

Article Numbers: 166415, 166414, 166413

Safety Instructions:

- Only use the desktop calculator in accordance with the operating instructions.
- Protect the desktop computer from moisture, wetness and extreme temperatures to prevent short circuits.
- Ensure that the batteries are inserted correctly to prevent overheating, leakage or explosion.
- The desktop calculator should be kept out of the reach of small children to avoid injury and the risk of suffocation.
- Handle the product with care as it is not protected against dropping or mechanical impact.
- Ensure that the product is not used for safety-critical calculations.
- Batteries should be disposed of properly and kept out of the reach of small children.
- Avoid improper handling as this can lead to electric shock due to faulty electrical components.
