Safety Instructions:

- The bag contains medical products; therefore, children should never access it without supervision.
- When the bag is open, watch out for sharp or pointed objects to avoid injury.
- Do not use the first aid bag near water to minimise the risk of damage to electrical equipment.
- Check the products contained in the bag for their shelf life and replace them regularly.
- Ensure that all users of the bag are informed about the use of the first aid materials contained in the bag.
