Please note the technical data of the products!

Article Numbers: 157088, 157087

Safety Instructions:

- Only use compatible Packpool assembly portals and profiles for assembly.
- Do not exceed the maximum load capacity of 20 kg.
- Check for stability and correct installation before use. We recommend regularly checking the stability and safety of the monitor support.
- Use a cable guide to avoid the risk of tripping.
- Make sure you use the correct VESA connection size (75 mm or 100 mm).
- Not suitable for applications outside the specification.
- Warns of possible overheating of electronic devices if they are overloaded.
- Avoid using damaged or worn elements.
- Mount the product securely to avoid the risk of falling.
