Safety Instructions:

- Ensure that the monitor arm is set up securely and stably to prevent it from falling over.
- Avoid overloading the monitor arm above the recommended maximum total weight of 16 kg.
- Ensure that all cables are laid correctly and securely to prevent tangling.
- The use of monitor units that support the VESA 75x75 and 100x100 standards is essential.
- Do not use improper installation materials and methods to ensure the safety of the product.
