Article Numbers: 194094, 194093, 194092, 194091

Safety Instructions:

- Combination lock provides increased security against unauthorised access.
- Provide an emergency opening key in case the code is lost. This should only be used in an emergency to prevent damage to the combination lock.
- Robust sheet steel construction ensures stability and durability.
- Observe the user instructions for safe use.
- Keep out of the reach of children to avoid possible dangers.
- Make sure that the key cabinet is securely attached to the wall to prevent it from falling over.
- Leave the key cabinet in a cool, dry place to prevent damage from moisture. Protect it from a damp environment to prevent corrosion.
- Use the combination lock carefully to prevent damage to the lock mechanism.
- Keep the key cabinet away from children and pets to minimise the risk of injury or loss of keys.
- Only store keys securely when they are closed and locked.
- Attention: Key cabinet contains small parts, choking hazard for small children. Not suitable for children under 3 years of age.
- Read the operating instructions and safety instructions carefully before use.
- Use of the combination lock should be supervised by adults to prevent misuse.
- Improper handling or damage to the product may result in a risk of electric shock.
