Article Numbers: 143670, 143669, 143668

Safety Instructions:

- Risk of suffocation due to improper assembly or adjustment of the mechanism.
- Risk of slipping if the seat height or tilt is not adjusted correctly.
- Pressure points due to improper use beyond the recommended sitting time of 8 hours.
- Make sure that the chair is assembled correctly to ensure safe use.
- Check the adjustment mechanisms regularly to ensure that they are safe and functional.
- Avoid sudden movements or excessive pressure on the armrests as they may break.
- Make sure that the user's weight does not exceed 110 kg to ensure durability. Note maximum load capacity: 110 kg.
- Only use the chair for its intended purpose to avoid injury or damage.
- Clean the chair according to the manufacturer's instructions to prevent material deterioration.
- If there are signs of damage or wear, consider taking the chair out of service. If necessary, ensure return options for defective parts.
- Ensure that the chair is placed on a stable, level surface to minimise the risk of it tipping over.
- Regular maintenance of the chair, especially the mechanics.
