Safety Instructions:

- Caution: Risk of cuts from the cutting blade. Sharp edge of the blade, risk of injury when touching. Sharp blades. Only use the cutting device properly. Keep hands and other parts of the body away from the blade during operation.
- Only suitable for installation by specialised personnel.
- The attachment must be checked before use. Before use, check that the cutting device has been properly secured.
- Use only in accordance with the instructions in the operating instructions. Safety instructions and instructions for use should be read carefully before first use.
- Wear suitable protective gloves for safe use.
- Use only recommended under adult supervision, especially in the vicinity of children.
- Make sure that the cutting device is securely attached to the table to prevent it from slipping during use. Ensure that there are no objects on the tabletop that could impair safety during cutting.
- Avoid contact with damp materials to prevent the blade from rusting.
- The product is not suitable for use with materials that are thicker than the specified cutting widths.
- The cutting device may only be used for its intended purpose (cutting paper and cardboard).
