Safety Instructions:

- Do not exceed the maximum load capacity of 40 kg per castor.
- There is a risk of tipping when using the castor stand on uneven surfaces.
- An unbalanced load can lead to the risk of tipping over.
- The product should not be used by children unless supervised by an adult.
- Ensure that the roller stand is used on a firm surface.
- Before inserting castors, ensure that they are correctly secured.
- Ensure correct assembly and stability of the castor stand to avoid injuries.
- Before use, ensure that the product has been checked for proper function.
- Ensure that the product is not overloaded to prevent damage or accidents.
- Observe compatibility when using additional parts.
