Safety Instructions:

- Ensure that the system angle plate is mounted stably to prevent it from falling over, tipping over or slipping.
- Avoid scratching or damaging the surface during assembly and handling to ensure durability. Sharp objects should not be used to protect the surface.
- Use by children should be under adult supervision and small children should be kept away from the system angle plate to prevent injury.
- The system angle plate should only be used as a connecting piece between desks with a plate depth of 800 mm.
- Regular inspections for wear or damage are necessary to ensure safety and functionality.
- The installation instructions should be followed carefully to avoid stability risks and improper installation.
- For safe use, the maximum weight limits must be observed to avoid overloading.
- Wet surfaces should be dried immediately and contact with water should be avoided to prevent damage to the coated surface.
- The system angle plate should not be moved by more than two people to avoid injury.
- Keep the edges of the system angle plate away from the body area as they may be sharp.
- Small parts and packaging materials should be kept away from small children to avoid the risk of suffocation.
- Avoid using cleaning agents that could damage the coatings.
- Keep the work surface free of unnecessary objects to avoid tripping hazards.
