Safety Instructions:

- Choking hazard due to envelopes, especially for small children, as they may contain parts that can be swallowed. Not suitable for children under 3 years of age.
- Paper dust can cause allergic reactions, especially in people with respiratory diseases.
- Not suitable for contact with food, as the material is not food-safe.
- Avoid using envelopes to store flammable or highly flammable materials to prevent the risk of fire.
- Only use the envelopes for their intended purpose and secure them before dispatch. Make sure you use the adhesive seal correctly.
- Protect the envelope from damage by not pressing any sharp objects on it and by not compressing or creasing it.
- Store the envelopes in a dry place and avoid direct sunlight in order to maintain the quality of the paper and internal security printing.
- Make sure that envelopes do not fall into the hands of unauthorised third parties to ensure that the information they contain is protected.
- Provide packaging information in accordance with the General Product Safety Regulation.
