

# Product Safety Information

## Weighbridge platform scale series PT 112 and 312, with or without indicator, div. loading cap.

**Manufacturer/Responsible Person:** AE Adam GmbH, Instenkamp 4, 24242 Felde, Deutschland  
**E-Mail:** info@aeadam.de

Please note the technical data of the products!

**Article Numbers:** 154065, 154064, 154056, 154055

### Safety Instructions:

- Ensure that the weighing platform is mounted and positioned on a stable and level surface.
- Avoid overloading the specified capacity of 3000 kg.
- Do not use the weighing platform if it is visibly damaged.
- Keep the load cell cable and connections protected from moisture and mechanical stress; ensure that the cable is undamaged and correctly connected.
- Make sure that there are no objects near the weighing platform that could interfere with its use or weighing.
- Create regular maintenance plans to ensure the functionality of the weighbridge.
- Ensure that the operating personnel are properly trained and follow the manufacturer's safety instructions.
- Use protective clothing when weighing or moving heavy objects.
- Be aware of the dangers during handling and only use the weighing platform on a stable surface.
- Avoid overloading the weighing platform with moving loads.
- The product should not be combined with non-calibratable systems to ensure accuracy.
