Safety Instructions:

- Product is not designed for use by children, use only under supervision.
- Maximum load capacity: Do not exceed 300 kg to avoid damage.
- Risk of electric shock: Only use with proper electrical installation and do not use if the cable or plug is damaged.
- Product is splash-proof, but not waterproof. Protect from direct moisture.
- Not suitable for humid or explosive environments, except for specific models.
- Before use, ensure that the product is placed on a stable and level surface to ensure accurate readings.
- Carry out regular maintenance and calibration to ensure accuracy.
- Do not use in direct sunlight or at high temperature fluctuations.
- Ensure that all parts are correctly assembled and undamaged, especially before first use.
- Charge the batteries regularly and read the operating instructions to avoid malfunctions.
- Store small parts out of the reach of children to avoid the risk of suffocation.
- Clean only with suitable, non-aggressive agents.
- Contact the manufacturer in the event of any irregularities or unexpected behaviour.
- Only operate on a stable, non-slip surface.
- The operating instructions must be read in full to avoid improper use.
- When handling heavy loads, take protective measures to avoid mechanical hazards.
