

Product Safety Information

Mobile sump LPW 60-3, with perforated plate wall, made of steel, capacity 2 x 60-litre drum

Please note the technical data of the products!

Article Numbers: 137564, 137563, 137562, 137561, 137560, 137559

Safety Instructions:

- Use only in well ventilated areas to avoid fires, explosions and vapours.
- Store flammable liquids and the drip tray away from sources of ignition and heat.
- Take care when handling filled drums and the tub to avoid tipping over.
- Suitable for filling water-polluting and flammable substances, observe environmental and safety precautions.
- Regularly check for damage, corrosion and stability of the drip tray; rectify any damage immediately.
- Keep out of reach of children and unauthorised persons.
- Avoid direct contact with substances to be filled; wear personal protective equipment (PPE), such as gloves and safety goggles.
- Do not overfill the drip tray; observe max. 60 litres and load capacity of 1000 kg/m².
- Only use compatible tools; read the operating instructions carefully.
- Consult the manufacturer or specialist in the event of uncertainties or spills.
- Only use the drip tray in the intended frame and on a stable, level surface.
