

Product Safety Information

Platform scale series CPWplus P, with weighing & holding function, splash-proof

Manufacturer/Responsible Person: AE Adam GmbH, Instenkamp 4, 24242 Felde, Deutschland
E-Mail: info@aeadam.de

Please note the technical data of the products!

Article Numbers: 154120, 154047, 154045, 154040, 154034, 154033

Safety Instructions:

- Ensure that the scales are placed on a stable, level surface to ensure accurate measurements and avoid accidents.
- When using in damp environments, ensure that the scales are not flooded. The scale is splash-proof, but not suitable for use completely under water.
- Do not exceed the maximum permissible load: load capacities are 35 kg, 75 kg and 200 kg to prevent damage.
- Check the weighing platform regularly for damage or wear and tear and avoid the risk of suffocation due to improper use of small parts.
- Use the appliance in accordance with the operating instructions and read the operating instructions carefully before using the appliance for the first time.
- Observe electrical safety: Do not use the appliance under water, do not use it wet to avoid electrical hazards, and avoid electrostatic hazards due to improper handling.
- Follow instructions for safe cleaning, avoid aggressive cleaning agents on stainless steel surfaces to prevent damage to the appliance.
- Choking hazard due to small parts and improper use: Use the appliance in accordance with the manufacturer's instructions.
- When using in the laboratory: Observe all safety guidelines and use suitable personal protective equipment.
- The product is not suitable for use in potentially explosive atmospheres.
