

Product Safety Information

Bauer perforated grating for PE sumps

Please note the technical data of the products!

Article Numbers: 137474, 137473, 137472, 137471, 137470

Safety Instructions:

- Note maximum load capacity: 55 kg for small models, 105 kg for medium models and 205 kg for large models. Maximum dimensions: L 600 x W 400 x H 170 mm and L 800 x W 400 x H 170 mm 55 kg each, L 800 x W 600 x H 170 mm 105 kg, L 1000 x W 600 x H 175 mm and L 1200 x W 800 H x 175 mm 205 kg each.
- Ensure that the product is not overloaded and that the maximum load capacity according to the specified dimensions is not exceeded.
- If the material is damaged or visibly defective, discontinue use immediately and contact the manufacturer.
- Regular inspection and maintenance of the perforated grating for wear and possible hazards.
- The product is designed for use in industrial and commercial areas.
- When storing small containers, it must be ensured that they stand securely and stably on the perforated grid.
- Ensure that the perforated grating is positioned stably and securely. The product should be placed on a firm and stable surface.
- Do not place in the immediate vicinity of heat sources to avoid material damage.
- Safety information and instructions must be provided clearly and comprehensibly.
- Follow disposal instructions to protect the environment.
- The product is not suitable for use with flammable or corrosive materials.
- The product is only to be used for its intended purpose and is not intended for use by children.
