

# Product Safety Information

## Bauer drum stacking pallet in different versions. Variants, collection volume 210 L

Please note the technical data of the products!

**Article Numbers:** 137516, 137515, 137514, 137513, 137512, 137511

### Safety Instructions:

- Suitable for storage and transport of flammable substances hazardous to water. Risk of ignition if handled improperly. Use suitable protective clothing such as gloves and safety goggles to avoid skin and eye irritation.
- Observe maximum load capacity: 1000 kg/m<sup>2</sup> to avoid overloading and damage. Do not overload the drum stacking pallet.
- Stack up to a maximum height of three units. Secure against tipping over to ensure stability.
- When using a pallet truck or forklift, ensure that the product is properly driven under and moved. Only use suitable equipment to avoid damage.
- Observe protective measures against injuries during lifting and transport. Wear suitable personal protective equipment (PPE).
- Regularly inspect the pallet for damage or corrosion. Ensure that the collection volume is not exceeded before stacking drums.
- Only use in a stable position to avoid accidents. Always observe the manufacturer's safety instructions.
- Only use lifting eyes to secure the pallet, not for lifting barrels.
- Store in well ventilated areas to minimise the risk of vapours.
- Kennzeichnung der Palette mit relevanten Sicherheitsinformationen und Verwendungshinweisen. Clear instructions and safety information must be provided in a language easily understood by consumers.
- Wear protective clothing when handling and stacking drums and inform employees about height and swivelling movements with crane eyes.
