

# Product Safety Information

## Lightbar attachment for suspension of the LED luminaire, available in various versions

**Manufacturer/Responsible Person:** DASCOM Europe GmbH, Heuweg 3, 89079 Ulm, Deutschland  
**E-Mail:** info.de@dascom.com

Please note the technical data of the products!

**Article Numbers:** 157096, 157095, 157094

### Safety Instructions:

- Regularly check the fastening of the LED lights for safety and stability.
- Avoid overloading the suspension with more luminaires than specified.
- Ensure that the product is not used in damp locations.
- Follow the instructions for safe installation and use to minimise the risk of injury.
- The suspension must comply with the safety standards for electrical appliances.
- Ensure that the suspension is mounted stably to prevent it from falling.
- Do not use LED lights with a higher wattage than specified to avoid overheating and the risk of fire.
- Keep the area around the lights free of flammable materials.
- Regularly check electrical connections and cables for damage.
- Ensure that the lights are properly earthed to avoid electric shocks.
- Do not block or cover any parts to avoid overheating.
- Before installation, ensure that the ceiling or wall is sufficiently stable.
- Avoid direct contact with water during installation.
- Use suitable tools for safe installation.
- Observe the specified dimensions and weights to prevent overloading.
- Ensure that the power supply is switched off during installation.
- Use only for the intended purpose; improper use can cause damage.
