Safety Instructions:

- Ensure that the monitor arm is properly secured to prevent the monitor from tipping over or falling and regularly check the fastenings for safety and strength.
- The maximum load capacity is 9 kg; make sure that the connected monitor does not exceed this weight to avoid mechanical damage or accidents.
- Avoid excessive pressure on the monitor arm to prevent damage.
- Make sure that all cables are laid securely to avoid tripping hazards.
- Be careful when adjusting the monitor arm to avoid injuries caused by crushing, falling parts or incorrect handling.
- For the safety of children and vulnerable persons, ensure that no small parts are easily accessible.
- The product is not suitable for use in humid or extremely hot environments.
