E-Mail: info@go-europe.com

Please note the technical data of the products!

Article Number: 166543

Safety Instructions:

- Caution: High volume of 105 dB can damage hearing. Use hearing protection.
- The alarm siren is splash-proof (IP54), but not completely waterproof. Operation should be checked in extreme weather conditions.
- Batteries are included. These must not be thrown into a fire or overheated in order to avoid the risk of explosion.
- Suitable for wall mounting. There is a risk of injury if installed incorrectly.
- The installation instructions must be observed when connecting to a central unit. Incorrect installation can impair functionality.
