Please note the technical data of the products!

Article Numbers: 90638, 90637, 90630

Safety Instructions:

- Installation should only be carried out by qualified personnel.
- Avoid contact with water or other liquids to minimise electrical safety risks.
- Ensure that all fastenings are securely tightened to prevent the parts from loosening during operation.
- There is a risk of injury or damage to property if used incorrectly.
- The use of the recommended C-profile rails is necessary to ensure the safety and functionality of the superstructure.
- Ensure that all parts are correctly fitted to avoid injury.
- During installation, ensure that the running rails are firm and stable to prevent the superstructure from slipping or tipping over.
- Avoid overloading the additional superstructure to reduce the risk of structural damage or accidents.
- Keep a safe distance from moving parts when working on the installation.
