Safety Instructions:

- Caution: This tabletop can press on objects or people when being adjusted, so do not leave any objects or body parts in the movement area.
- Use the product in accordance with the enclosed safety instructions and assembly instructions, carry out regular safety checks in accordance with TÜV standards.
- Keep children and pets away or under supervision during use to avoid injury from the electrical mechanism.
- Avoid overloading: Maximum dynamic load of 65 kg and static load of 120 kg to prevent damage and safety risks.
- Ensure that all cables are securely routed to avoid tripping hazards and carry out regular maintenance to prevent damage to cables and electrical connections.
- The table should be placed on a stable, level surface to prevent it from tipping over.
- Only use electronic parts in dry conditions to avoid the risk of electric shock and damage. In the event of unusual noises, switch off the appliance and have it checked.
- Activate and check the collision protection regularly to avoid injuries.
- Minimise the risk of suffocation from small parts in the work area and store safely.
