Article Numbers: 232710, 232709, 232708, 232707, 232706, 232705, 232704, 232703, 232264, 232263, 230913, 230912, 230185, 230184, 230183, 230181, 230180, 230179

Safety Instructions:

- Choking hazard due to small parts and loose cables, keep the product out of the reach of children.
- Risk of electric shock due to improper handling of the electric motor or damaged electrical components, check before use.
- Risk of injury due to improper height adjustment of the desk, only adjust while standing and keep children away.
- Do not exceed the maximum load capacity: static 120 kg, dynamic 65 kg, to prevent damage.
- Risk of tipping if the table is used incorrectly or is unstable; ensure stable and level installation.
- When using the electric height adjustment, ensure that no parts of the body are trapped or obstructed by foreign objects.
- Carry out assembly, use and maintenance in accordance with the instructions supplied to ensure stability and safety.
- Keep cables tidy and avoid tripping hazards with secure cable routing.
- For children and vulnerable persons: Follow the safety instructions carefully and ensure supervision.
- Regular maintenance of the electrical parts is required to ensure operational safety.
- Read and follow the installation and user instructions carefully and observe the safety warnings.
- Secure the table against tipping over when it is used at its maximum height.
- Ensure that the desk does not come into contact with water or other liquids to avoid electrical hazards.
- Keep the workplace clean and free of obstacles to avoid accidents.
- Take care not to use the table in an excessively confined space to avoid injury when adjusting the height.
- Take care not to place any heavy objects above the maximum permissible load.
- Avoidance of postural monotony should be encouraged by taking regular breaks.
- Do not use the table if it is damaged or makes abnormal noises during use.
- Check the desk regularly for stability and functionality to prevent accidents.
