Safety Instructions:

- Keep children and animals away from the table while it is in motion to minimise the risk of injury.
- Maximum load capacity is 65 kg dynamic and 120 kg static. Do not exceed these limits to avoid structural damage or tipping over.
- Follow the installation and operating instructions carefully to ensure proper and safe use.
- Regularly check the stability of the table and the functionality of the electrical components for damage.
- Ensure that the product is mounted and used on a stable and level surface to prevent it from tipping over.
- Keep the area around the table free of obstacles during height adjustment and avoid placing objects in the mechanism or in the cable aperture.
- Only use the table in dry environments and keep it away from water and moisture to avoid electrical damage or shocks.
- Always unplug the appliance before carrying out maintenance work and have electrical components repaired by qualified personnel only.
- The product should only be used by adults who have read the operating instructions.
- Do not use the table if it is visibly damaged or does not function properly.
- Make sure that cables are laid properly to avoid tripping hazards and that they are not pulled over sharp edges.
- The product should be kept out of the reach of children to avoid the risk of injury and choking.
