Safety Instructions:

- The partition wall must be installed properly and in accordance with the enclosed instructions to prevent it from tipping over or slipping and to ensure safety.
- Avoid using the product outdoors or in humid environments to prevent material damage as it is not weatherproof.
- Do not install the product near fire, heat sources or in direct sunlight to prevent deformation, discolouration or fire.
- Keep children away from the product and prevent them from using it as a toy, as it is designed for adults and there is a risk of suffocation.
- The stability and condition of the product should be inspected regularly, especially in the event of visible damage, to ensure safety and to contact the manufacturer if necessary.
- The partition wall should not be used as a seat, shelf, support for objects or as fall protection to avoid the risk of falling and injury.
- Installation and adjustment should only be carried out by qualified personnel in order to minimise the risk of injury from sharp edges, moving parts and improper handling.
- Avoid contact with water, strong chemicals or aggressive cleaning agents, as these can impair the acoustic properties and materials.
- Ensure that the mounting adapters are securely and correctly fitted to avoid instability and associated risks.
- Avoid loading the table partition with heavy objects to preserve its structural integrity.
- Use suitable devices for height adjustment to prevent injury or instability.
