

# Product Safety Information

## **1x 90°/ 2x 135° angle interlinking sound insulation system 40, for movable wall heights 1200-1800 mm**

**Manufacturer/Responsible Person:** OMIT Acoustics GmbH, Wolfersheimer Straße 23-25, 66440 Blieskastel, Deutschland  
**E-Mail:** info@omit.de

Please note the technical data of the products!

**Article Numbers:** 194948, 194947, 194946, 194945

### **Safety Instructions:**

- Ensure that the partition walls are stably connected in the event of wind and other external influences to prevent them from toppling over or collapsing.
- Follow the installation instructions and user instructions exactly to avoid improper connections or handling that could lead to accidents or injuries.
- Observe the maximum partition heights: 1200 mm, 1400 mm, 1600 mm and 1800 mm to ensure proper function and stability of the sound insulation system.
- Avoid weights, pressure or direct additional loads on the angle connections to prevent structural damage.
- Avoid sharp objects near the partition walls to prevent damage.
- Make sure that no electrical lines or cables are laid near the movable walls to avoid short circuits or electric shocks.
- To ensure safety, only use the product in conjunction with the partition walls provided for this purpose.
- Keep out of the reach of children to avoid the risk of injury.
- Check for damage before use to rule out safety risks.
- Avoid using the screens in very windy areas to prevent the risk of them falling over.
