Please note the technical data of the products!

Article Number: 137745

Safety Instructions:

- Before use, ensure that the container is correctly installed and stable.
- Regularly inspect the seals and the drip tray for cracks or damage.
- Do not exceed the maximum permissible load (1000 kg/m²) to avoid structural damage.
- When storing hazardous substances, the applicable regulations and guidelines (including TRGS 510) must be observed.
- Check the ventilation systems regularly and ensure that they are working properly.
- In the event of a leak, take immediate measures to remove the substance in order to prevent environmental damage.
- Do not operate the product with flammable media above water hazard class WGK 3.
- Wear protective equipment (safety goggles, gloves) when handling hazardous substances.
- Explicit safety precautions and protective measures must be taken during filling and decanting.
