Article Number: 137748

Safety Instructions:

- Ensure that the container is used for the storage of hazardous substances in accordance with TRGS 510.
- Avoid accumulating water on the grating covers to minimise the risk of slipping accidents.
- Ensure that the container is checked regularly for leaks or damage.
- Use suitable personal protective equipment (PPE) when working with hazardous substances.
- Follow the instructions for installing and using the ventilation equipment for safe storage.
- Adequate ventilation must be ensured, especially when storing flammable or water-polluting substances.
- Training of employees in the safe handling of hazardous substances and the specific properties of the container.
- The use of suitable equipment when loading and unloading hazardous materials to prevent damage.
