Safety Instructions:

- Check the product for sharp edges to avoid the risk of injury.
- Make sure that the clothes locker is placed on a stable and level surface to prevent it from tipping over.
- Regularly check the stability and integrity of the locker and ensure that it is securely mounted to prevent it from tipping over.
- The ventilation slots should not be blocked to ensure sufficient air circulation and prevent mould growth.
- Only use the padlocks provided with a shackle thickness of 5-7 mm to ensure security.
- Make sure you close the doors securely to prevent damage and injury.
- Keep the clothes locker in a dry, well-ventilated room away from sources of water to prevent rust and corrosion.
- Do not load the clothes locker above the maximum permissible weight limit of 100 kg per compartment to avoid structural damage.
- Keep small parts away from small children to prevent the risk of choking.
- Only use the clothes locker for its intended purpose to avoid damage and safety problems.
- Be careful when opening and closing the locker doors to avoid the risk of crushing.
- When used in public facilities, additional safety measures should be taken into account.
- The product is not suitable for outdoor use in order to avoid material damage.
- Ensure that assembly is carried out in accordance with the enclosed instructions and that the clothes locker is not overloaded in order to maintain stability.
- Make sure that heavier objects are placed in the lower area to prevent tipping.
- The product weighs 48.7 kg. Assistance with transport is recommended.
