Safety Instructions:

- Use the security twist lock for padlocks with a shackle thickness of 5-7 mm to prevent unauthorised access.
- Do not overload the bench and wardrobe to avoid stability problems.
- Make sure that no small parts are loose to avoid injuries and minimise the risk of suffocation.
- Make sure that the wardrobe is on a firm and level surface, especially if it is height-adjustable, to prevent it from tipping over.
- During installation, ensure that all screws are tight and that the instructions are followed to avoid malfunctions.
- Keep children away from using the product without supervision to avoid injury.
- Make sure that sharp objects do not get close to the ventilation slots to avoid injury.
- Avoid placing the wardrobe near sources of heat or water to prevent damage.
- Regularly check the safety latch and the doors to ensure that they function properly and close securely.
- Make sure that the clothes rails and hooks are properly fitted and not overloaded to prevent clothes from breaking or slipping off.
- Only use the cabinet indoors, it is not suitable for outdoor use.
- Before first use, check the height settings and stability to ensure safety.
- If there are signs of damage or missing parts, take immediate action to prevent damage or injury.
- Ensure that the doors are properly closed to avoid injury from crushing.
- Avoid overloading the doors and do not block the ventilation slots to ensure proper air circulation.
- Watch out for sharp edges when handling to avoid injury.
- Avoid improper use of the wardrobe to prevent injuries.
- The cabinet is not suitable for children under 3 years of age due to small parts.
