Safety Instructions:

- Ensure that the wardrobe is stable on a level surface to prevent it from tipping over.
- Do not overload wardrobes to ensure their stability. Pay particular attention to the maximum load capacity of the clothes rails and hat shelves.
- Check the edges and doors of the cupboard regularly for damage to avoid injury.
- Protect the cabinet from direct sunlight and moisture.
- Avoid hanging sharp or heavy objects over the door opening.
- When using padlocks, ensure that the shackle is securely inserted and that the shackle thickness is 5-7 mm.
- The rotary bolt lock should only be used with a suitable padlock to prevent unauthorised access.
- The product should not be used by children without adult supervision.
- Only load the bench with the intended weight to prevent it from tipping over or breaking. Maximum load 100 kg or 200 kg, depending on the model.
- Choking hazard due to small parts and building components, keep away from small children.
- Risk of crushing and injuries due to improper handling of the doors, especially when closing them hard or opening them improperly.
- Ensure that all moving parts are regularly checked for damage to prevent injury.
- Excessive load on the seat bench can lead to injuries. Observe the maximum weight.
- Attention: The cabinet should not be used as a ladder system.
- Installation must be carried out in accordance with the instructions provided to ensure stability and safety.
- Take care when assembling and installing: Note sharp edges and weights.
- Care must be taken with sharp edges or corners to avoid injury.
- Take particular care when using padlocks to prevent misuse.
- Not suitable for children under 3 years of age (choking hazard due to small parts).
- Read the instructions carefully before installation and check all parts to ensure safe use.
