Safety Instructions:

- Make sure that the clothes locker is stable to prevent it from tipping over or falling.
- Ensure that the clothes spindles are set up on a stable and level surface.
- Avoid overloading the locker to prevent stability and structural weaknesses. Observe the recommended maximum load on the shelves.
- Please ensure that the locker is installed correctly and that the screws are checked regularly to prevent accidents or damage.
- The clothes locker should only be used for its intended purpose to ensure correct utilisation.
- Keep the clothes locker dry and clean to prevent rust and mould growth.
- Avoid storing liquids or chemical substances in the locker to prevent corrosion.
- Sharp or heavy objects should not be stored in the locker to reduce the risk of injury.
- Children should only use the locker under adult supervision. Product is not suitable for children under 3 years of age due to small parts and choking hazard.
- Only use locks or fasteners recommended by the manufacturer to secure personal items.
- Watch out for sharp edges or burrs that could cause injury on contact.
- Use the instructions provided during installation to ensure the safety of the structure.
- Avoid storing heavy objects above the recommended weight in the locker to prevent tipping.
- All safety instructions in the operating instructions must be observed when using the Spindles.
- Product is made of sheet steel and weighs 40 kg. Take care when lifting and transporting.
- Regularly check the doors and ensure that they are properly closed.
