Safety Instructions:

- The chair should be assembled in accordance with the instructions in order to avoid injury.
- Before use, check the setting options for personal comfort and safety.
- Regular maintenance of the chair, especially the synchronised mechanism, to ensure functionality and safety.
- Do not exceed the maximum specified load (110 kg).
- The chair is designed for use by adults. Not for use by children without adult supervision.
- Improper use can increase the risk of injury, particularly if the chair slips or tips over.
